Dissections

Dissection Chairs:
G. Hamilton
R. Magritz
T. Reichert

Anatomic dissections (Oct 13 and 14)
On Oct 13 a full day anatomy workshop surgical rejuvenation is offered. The participants will be taken through the key procedures of surgical rejuvenation, including face lift, endoscopic brow lift and endoscopic midface lift. Two participants share one fresh frozen cadaveric head. On Oct 14 a full day anatomy workshop rhinoplasty is offered. The participants will be guided through the key approaches and maneuvers in rhinoplasty, including septoplasty, endonasal and open approach, suture techniques, grafting, osteotomies, saddle nose reconstruction etc. Two participants share one fresh frozen cadaveric head with fully preserved nose.

Workshop auricular reconstruction (Oct 13 and 14)
A full day workshop auricular reconstruction is offered on Oct 13 and on Oct 14 (both are identical). One of the world’s leading experts, Ralph Magritz from Recklinghausen, Germany, will teach a limited number of participants the carving of an auricular framework. A special model of synthetic material resembling rib cartilage is utilized. Instrumentation, suturing and surgical technique are derived from what Dr. Magritz routinely uses in the operating room.

"Under the auspices of the EAFPS"
Dear Colleagues and Friends:

After the wonderful success of the past Regensburg courses, we would like to invite you for an even more outstanding surgical training in a spectacular environment. We have incorporated your feedback in an effort to further improve the scientific program. This includes the addition of a full second day of dissections dedicated to stereopsis.

The course program is specifically designed to teach facial plastic surgery techniques in a structured, step-wise manner. Outstanding faculty from Europe and the USA will train you in:

• Modern techniques in facial rejuvenation:
  - Face lift, Endoscopic brow lift, Blepharoplasty, Fat Grafting.
  - Minimal invasive, incisionless and revisional techniques.

• Advanced concepts in rhinoplasty and otoplasty:
  - The nasal base: Key flap in nasal reconstruction.
  - Endonasal approaches step by step.

• The latest advances in fillers, chemodenervating agents and Mesotherapy.

The Regensburg Course in Facial Plastic Surgery, October 10th - 14th, 2013 – Under the auspices of the European Academy of Facial Plastic Surgery (EAFP.org)

Program:

- **Mediation**
- **Surgical Anatomic Dissections**
- **Discussion**
- **Lecture**
- **Live Surgery**
- **Workshop**

The course program includes lectures, live and specimen demonstrations, as well as hands-on workshops on Oct 13 –14.

The course program chairs have taken special care to ensure clear and concise presentation and didactics so that participants who are not fluent in English will easily be able to follow the program.

Regensburg is one of Germany’s most wonderful medieval towns, relaxing yet vibrant. The town is located close to Munich (visit the famous Oktoberfest Sep 21-Oct 6). Train is easy to Munich airport, and hotel accommodation is affordable. Please let us welcome you to the “Regensburg Course in Facial Plastic Surgery 2013” and to the charming beauty of our city, a UNESCO world cultural heritage.
